

Access to RICARICA EV Network for non-Italian users

RICARICA EV is the first charging network in Italy, allowing Italian users to charge their electric vehicle free of charge simply using their National Service Card (*Carta Nazionale dei Servizi, CNS*), issued by the Italian Government to all its citizens.

In order to access the charging service, non-Italian users have 2 alternatives to access our charging points:

TEMPORARY CARD IN MALLS AND SUPERMARKETS

You can charge your vehicle free of charge at all charging points located near malls and supermarkets, asking for a temporary RFID card at the reception during opening times.

REQUEST A RFID CARD

You can ask for a RFID card for accessing all the RICARICA EV charging points in Italy and charge your vehicle free of charge (*). For this, follow the 2 steps below:

1. Fill the form below with your data, and send it back to service@ricaricaev.it
2. Pay the expedition fees (15 Euros) to the bank account:

Seh srl

via primo Maggio 8, 20068 Peschiera Borromeo - MI - Italy

IBAN IT41D0311133730000000010057

SWIFT BLOPIT22

Reason for payment : "ricaricaev - <your name and surname> "

You will receive a RFID card and an invoice to the address you write in the form by priority mail (usually 3-5 working days after the reception of the payment). An account will be created with a default password, that you will need to change in your personal settings.

NOTES:

- The full list of charge points is available at : www.ricaricaev.it/maps
- Roaming with other European charging networks is currently not supported by RICARICA EV.

(*) RICARICA EV and its partners may retain the right to change the terms of the charging service and the fruition fees at any moment, without further notice and with no reimbursement due for the registration fees.
